Sandra Bullock at the People's Choice Awards (AP Photo/Matt Sayles)

2009 was good to actress Sandra Bullock, whose recently released movie, "The Blind Side" has thus far grossed more than \$200 million.

Bullock arrived at the People's Choice Awards with her blonde locks turned back to her beautiful brown, and pulled back in a sleek and chic side ponytail.

Simple makeup with a focus on dewy skin and a slight cateye wisp of eyeliner enhance Sandra's beautiful cheekbones and flawless skin.

Want to recreate Sandra's look for yourself? [Try Liquid Keratin](#) to tame curly locks and keep hair smooth as silk and perfectly straight (and shiny, to boot!). [Kat Von D liquid](#) eyeliner easily creates a liquid line that makes the cateye look easy.
